An Executive Introduction

Prosperity Global Ventures (Pty) Ltd is a South African diversified enterprise operating across procurement, agriculture, logistics, infrastructure supply, and community development. The Group exists to mobilise capital, capability, and partnerships in service of long-term institutional value across the African continent.

Our mandate is rooted in the conviction that durable prosperity is built through disciplined operations, transparent governance, and trusted partnerships with the public and private sector. We engage governments, multilateral institutions, commercial partners, and communities with the rigour expected of a multinational holding group.

This Company Profile sets out the Group's strategic positioning, core capabilities, sector solutions, and engagement pathways for prospective partners, procurement authorities, institutional investors, and supplier networks.

CORPORATE IDENTITY

Mission, Vision & Guiding Principles.

Mission, Vision & Values

Mission

To deliver dependable procurement, agricultural, logistical, and supply-chain solutions that strengthen food security, public service delivery, and inclusive economic growth across Africa.

Vision

To be recognised as a leading African diversified procurement, agriculture and development group — admired for operational excellence, institutional trust, and lasting socio-economic impact.

Guiding Principles

Integrity Transparent governance, ethical sourcing, and zero-tolerance for corruption across every engagement.	Excellence Operational discipline, measurable performance, and accountability to clients and stakeholders.	Impact Community-anchored development, sustainable practices, and long-horizon value creation.

CORE CAPABILITIES

Five Service Lines. One Institutional Standard.

Core Service Lines

Food Supply & Distribution

Bulk food supply for schools, municipalities, hospitals, correctional facilities, hospitality groups, and large commercial operations — supported by verified supplier networks and rigorous quality assurance.

Agricultural Solutions

Commodity sourcing, off-take partnerships, smallholder integration, and agro-development projects designed to strengthen national food systems and rural livelihoods.

Government Procurement

Strategic procurement support for public sector contracts, infrastructure supply, and tender execution — aligned with treasury regulations, PFMA, and B-BBEE objectives.

Logistics Coordination

Coordinated transportation, warehousing, supplier management, and last-mile distribution across regional supply networks.

Community Development

Food security, youth empowerment, agricultural participation, and inclusive economic programmes delivered through the Sustainable Economic Future (SEF) initiative.

Institutional Sector Solutions

We tailor delivery models to the operational realities and compliance requirements of each sector we serve.

Public Sector

Municipalities, provincial departments, schools and SOEs — procurement and supply aligned with PFMA and treasury frameworks.

Agribusiness

Commodity off-take, input supply, processing partnerships, and integration of smallholder producers into formal value chains.

Infrastructure

Supply solutions for construction, energy, water, and public works projects requiring scale, reliability, and compliance.

Hospitality & Retail

Consistent supply to hotels, restaurants, and retail networks across South Africa and the SADC region.

Healthcare & Education

Reliable nutrition and consumables supply to hospitals, clinics, school feeding schemes and tertiary institutions.

Development Partners

Programme delivery support for NGOs, donor-funded initiatives, and multilateral institutions.

SUSTAINABLE IMPACT

The Sustainable Economic Future Initiative.

Sustainable Economic Future (SEF)

The Sustainable Economic Future (SEF) initiative is the Group's flagship community impact platform. Designed as a long-horizon programme, SEF integrates food security, agricultural participation, youth development, and inclusive economic engagement within underserved communities.

- › Household food security programmes across nine provinces.
- › Smallholder farmer support, training, and market-access pathways.
- › Youth employability, enterprise development and skills transfer.
- › Community-anchored nutrition partnerships with schools and clinics.
- › Public–private partnerships that align development funding with delivery capacity.

Measured by Outcomes

Programmes are scoped, measured and reported against clear social and operational indicators — providing partners, funders and procurement authorities with assurance of governance, transparency and impact.

Governance, Compliance & Standards

Prosperity Global Ventures operates within an institutional governance framework designed to meet the expectations of public-sector procurement, multinational partners, and institutional investors.

Compliance Posture

COMPANY STATUS	Registered & In Good Standing
TAX COMPLIANCE	SARS Compliant
B-BBEE	Compliant Enterprise
CSD REGISTRATION	Central Supplier Database Registered
BANKING	Tier-1 South African Banking Partner
INSURANCE	Commercial & Public Liability Cover

Operating Principles

- › Documented procurement and supplier vetting procedures.
- › Conflict-of-interest, anti-bribery and ethics policies.
- › Transparent reporting to clients, partners, and authorities.
- › Continuous review of operational and ESG performance.

Why Partner With Us

Public institutions, commercial partners and development organisations select Prosperity Global Ventures for the discipline, reliability and institutional posture we bring to every engagement.

Strategic Capability
Procurement and supply expertise calibrated to public-sector and large-commercial requirements.

Operational Reliability
Vetted supplier networks, structured logistics, and consistent delivery performance.

Institutional Trust
Transparent governance, compliance posture, and long-term partnership orientation.

Scalable Delivery
Capacity to mobilise across multiple provinces and sectors without compromising standards.

Sustainable Focus
Programmes designed for measurable economic, social, and environmental outcomes.

African Mandate
A continental development orientation rooted in South African operational excellence.

Begin a Conversation.

We welcome engagement from procurement authorities, government departments, commercial partners, institutional investors and supplier networks. Our team responds to qualified enquiries with discretion and institutional rigour.
